Professional Profile

A multi-award winning Chief Information Security Officer, cyber security expert and risk leader with a track record of transforming security management across mission and safety critical organisations. A thought leader in the domain of human risk management, he combines deep expertise in information security, risk management and security culture change with the ability to influence senior stakeholders, shape strategy and lead high performing teams through complex, high stakes change. Operates as a trusted advisor to executives, bringing clarity to the complexity of cyber security challenges, and helping organisations adopt secure, resilient ways of working with confidence.

Core Skills

Enables resilient, enterprise-wide information and cyber security by combining deep expertise with the ability to shape strategy, guide senior leaders and embed pragmatic, business-aligned protection across mission critical environments and complex organisations.

- **Cyber Security Leadership:** Brings extensive experience shaping and delivering enterprise-wide security strategies across global organisations, including UK Air Traffic Control, Mastercard, Proofpoint and leading international law firms. Skilled at building mature, security aware cultures, embedding ISO27001 aligned controls and enabling organisations to adopt resilient, scalable security practices.
- **Risk, Governance, and Security Strategy:** Combines deep expertise in information security, risk management, security culture change and board level engagement with the ability to translate complex threats and risks into clear, pragmatic decisions. Operates as a trusted advisor to executives, enabling cost effective, business aligned security outcomes.
- **Influence, Communication, and Thought Leadership:** A highly effective communicator who influences senior stakeholders, partners and communities. Adept at leading high performing teams and builds strong communities of practice. An accomplished industry analyst and speaker with keynote experience at RSA, Black Hat and Infosec, and published across global media including the *Wall Street Journal*, *Financial Times*, *Washington Post*, *Wired* and *CNBC*.

Career Highlights

Field Chief Security Officer – Proofpoint Inc / SoSafe SE 2020 – Present

Provided security vision and thought leadership for fast-growing tech companies, elevating their position in the cybersecurity market. Led strategic CISO engagement across EMEA, drove executive client sessions and industry/media presence, shaping product relevance through deep insight into real-world CISO challenges.

Chief Security Officer – Vocalink, a Mastercard Company 2018 – 2020

Strengthened the security and resilience for a core element of the UK's national financial infrastructure by delivering major regulatory certifications, enabling cloud and DevSecOps transformation, and aligned with CNI threats.

Key aspects included:

- Delivered ISO, PCI and SWIFT certifications. Strengthened vulnerability management capabilities, establishing a robust regulatory and operational security baseline
- Enabled secure transformation by shaping policy, resourcing and tooling to support cloud adoption and embed DevSecOps practices

Influencing senior stakeholders through direct engagement with the Bank of England and customer boards to align security vision with emerging CNI risks.

CISO & Head of Cyber Security – NATS

2014 – 2018

Transformed the security posture of a critical national infrastructure organisation by embedding a security aware culture from boardroom to engineering teams. Delivered a change programme that strengthened operational resilience.

Key aspects included:

- Achieving rapid regulatory assurance through ISO27001 certification within nine months and expanding coverage across all air traffic control systems
- Shaping global aviation cyber practice by chairing international forums and working directly with the UK NCSC, Eurocontrol and EASA
- Established foundational security operations through the implementation of the a hybrid SOC capability.

Principle Analyst – Forrester Research Inc

2011 – 2014

Worked with \$1b+ organizations to support strategic cyber planning, risk management, governance, compliance, and security awareness/behavioural change.

CISO – Clifford Chance / A&O Shearman

2001 – 2011

Delivered security transformation and ISO compliance to 2 of the top 3 law global firms.
